EXPERIENCE

Lead Backend Engineer

Wholesale Helper - Laravel, Redis, and React

📅 Sept 2021 – ongoing 📍 Remote

- From serving 2K merchants and their 20K customers to now supporting over 12K+ merchants with 600K customers!
- Successfully migrated 60 million data points from a native codebase to a scalable microservices architecture.
- Increased yearly revenue from 40K to 2M.
- Handling 6.4 million API requests each month, all within under 2 seconds, after extensive optimization.
- Expanded from a 6-member team to 30, and now we're at 250 following the acquisition.
- Acquisition by Shop Circle

SAR Full Stack Contractor

ShareARefund - Laravel & Vue

📅 Oct 2019 – Mar 2020 📍 Remote part-time work

- Skilled in accounting payment app development, maintaining confidentiality via NDAs. Expertise in Zend, Laravel, VueJS, AWS CloudWatch, Amazon Connect Selenium scripting to optimize daily tasks for users
- An app that helps clients like shippers and resellers manage their accounting by processing CSV files to calculate payouts, generate reports, and handle payments.

Backend Lead

ClearGlass Analytics - Laravel

📅 Oct 2018 – Nov 2019 📍 Bengaluru

- Lead the backend development of ClearGlass Analytics from scratch using Laravel, following Agile practices, and actively involved in planning, implementation, testing, monitoring, and delivery.
- Worked closely with junior developers to meet project deadlines, assisted in solving customer issues, and conducted code reviews.

Frontend Intern

PlexusMD - Laravel, ReactJS & ReactNative

📅 December 2017 – March 2018 📍 Ahmedabad, Gujarat

- Contributed to the development of Medcast's Video Masterclass landing and video pages using React, implemented Redux's duck pattern, and built a mobile app: 'YouTube Enhancer', in React Native with a mute option, utilising YouTube's APIs (mute option isn't there in YouTube)
